R. E. MORNINGSTAR,

Secretary Kentucky Press Association.

## Union Decoration.

There will be a union decoration at the National Cemetery, Danville, on Wednesday, May 30th, at 3 P. M., on which occasion every Confederate veteran and every Federal veteran is cordially invited and requested to take part. Come let us show to the world that we are a united people. Hon. W. H. Miller, of Stanford, will speak on behalf of the Confederates and Capt. Wm. Herndon on behalf of the Federals. Flowers being exceedingly scarce this season, every one who can is requested to bring one or more small bouquets.

All the graves of the Confederates as well as those of the Federals will be decorated with flags and flowers. Every Federal soldier, every Confederate soldier and every Mexican war soldier in Lincoln and adjoining counties are not only cordially invited, but earnestly requested to come and join in these patriotic exercises. The students of Centre College, the pupils of the Danville public school and the D. & D. Institute have been invited and are expected to join us on that occasion. Come, come, come all.

W. J. BOHON,  
G. H. DOBINS,  
ALEX. TRIBLE,  
S. D. VAN PELT,  
Committee of Arrangements.

—Mississippi City, Miss., has a regular Breckinridge-Pollard case on its hands, in which a prominent doctor and a society widow are parties. During his wife's life, Dr. J. M. Wright divided his affections with her and Mrs. Levy. He maintained illicit relations with the widow with the natural result. A child was born and Mrs. Wright dying about that time, the woman importuned the doctor to marry her, which she claims he promised to do. He didn't, however, and a suit for breach of promise has been entered.

—A bold bank robbery by outlaws at Longview, Tex., ended in a terrible tragedy. Armed men secured \$2,300 from the National bank, and in the fight that ensued one of the robbers was killed, as was also a citizen; one man was fatally wounded, another badly shot and several slightly shot.

—The cadets of Hogsett Academy will go into camp for a week on the Kentucky river next Monday. The camp will be named in honor of Gen. P. Watt Hardin.

—At Ashland, O., George Stout fell dead and his son, Elmer, went crazy the same hour.

## HUSTONVILLE.

—Misses Helen Taylor, Beulah VanArsdale and Fan Adams visited Miss Nannie Kennedy.

—The snow last Sunday morning made the farmers eyes spread wider than any freak of nature has done lately.

—Miss Bessie Moore is visiting friends in Danville this week. Mr. Mose Cook returned from Paris with the latest styles in women's hats.

—Mr. W. R. Williams is a candidate for trustee in the Hustonville public school district. He is a sensible, conservative, good man and will make a good trustee.

—If the trustees of the town would repeal their hog laws and let the hog go at large, they would do the town a great good, and promote the general healthfulness of the place.

—They do say that Dr. Brown is going to California. Wonder if he is going to take Biddie McHune with him. He told the reporter last week that it was all made up and ready between them.

—Charlie Green, the handsome young man of your town, was up Friday on his wheel. As he went through town you could almost see girls' hearts flying after him like bumblebees after the harvest moon.

—The college girls spent Saturday and Sunday with Mrs. Gover, of Turnersville. Mr. W. D. Chestnut and wife, of Danville, W. C. Kelley, of Knoxville, and Mr. Whipp, of Liberty, were in town Saturday.

—The Beech Grove Society will meet Friday night. The subject for debate is affirmed, "That Bread and Butter are greater Nutrients than Biscuit and Molasses." It promises quite interesting. All come and hear it.

—The entertainment given at the college last Friday night was a great treat. Nothing could please the lovers of music more than the old time melodies that were played by the music pupils. The stage was decorated with flowers.

—Miss Bettie Powell, accompanied by two of her schoolmates from Texas, will return home Friday, 25th. Mr. C. C. VanArsdale will begin the erection of a new house soon. They say it will not accommodate any Roses and Rubies. Sid Adams was in Lancaster Sunday to see his best girl, so he says.

—One young man of this place called on a lady to take her to the entertainment at C. C. Her father, however, had a few words to say in the matter and when he got ready to leave he left by himself. We don't know what he told him. If a few more fathers of this city would do the same thing they would have less oil to buy.

—A certain young man of town went to see his girl the other night and carried off the keys to the store, leaving his father to close up. When the hour for closing arrived, the young man hadn't returned with the keys. When he did arrive the neighbors say they heard the old man splitting boxbills. When you get an older Ellis started, by "George" there is no stopping him until some one gets whipped.

—The normal school, which is to open in Christian College June 11th, promises to be one of the finest in the State. The building and surroundings are all in fine condition and everything equipped for the business. The principals, Prof. M. G. Thomson and W. C. Grinstead, are both experienced and practical teachers, and know just what public school teachers need. At the very low price at which they propose teaching, each and every teacher can afford to avail himself of the superior advantages offered.

## CHURCH AFFAIRS.

—Elder Keene's meeting at the Carlisle Christian church had 25 additions.

—Chicago is to have a church eight stories high. When some of the Chicago people get up in the top story they will be nearer Heaven than they can ever expect to be in any other way.—Georgetown Times.

—The Cumberland Presbyterian Assembly, sitting at Eugene, Ore., decided, by a vote of 85 to 81, that women shall not be ordained to preach. That seems to have been unanimously decided in a similar way away back yonder in Paul's time. See Tim. 2:12.

—The subject of organic union with the Northern Presbyterian church brought forth a heated discussion at the Southern Presbyterian Assembly at Nashville, which refused to even discuss those subjects that have been regarded as barriers to the proposed union. The Northern Assembly at Saratoga made further overtures on the subject, one speaker declaring that longer separation of the two branches of the church would be a crime.

—The Methodist church couldn't hold the crowd that gathered to hear Rev. H. C. Morrison Tuesday night. Long before dark vehicles began to come in from the country and the church was soon filled with eager people. The good brother brought the sanctified another message and strengthened them in the faith. Judging by all the indications he seems to have gotten very near to the hearts of this people.

## LONDON, LAUREL COUNTY.

—Circuit court is in session, Judge A. H. Clark, presiding; W. R. Ramsey, Commonwealth's Attorney. No important cases have been tried yet.

—The students of Laurel Seminary gave a free exhibition at Jackson's Opera House Tuesday night. The house was crowded to overflowing, and the programme was a splendid one, enjoyed and enjoyed.

—Alf Bright, who is said to be in the liquor business near Altamont, got drunk in town Tuesday and shot a pistol on Main street in London. It wasn't three minutes until he was in the hands of officers.

—Editor Ed Smith was here during the week. You may call him any name you want to, but there is one thing certain there is no compromise in him so far as politics are concerned. He believes in straight goods and wants the yards wide and a few extra inches on the length.

—A constant reader of the INTERIOR JOURNAL requests me to say for the benefit of Mr. Rout that the 17th day of May, 40 years ago, didn't come on Sunday, and therefore he is undoubtedly mistaken about the snow and frost on that day, and also in regard to the corn planting, &c. The gentleman is old enough to know, but I am afraid he won't like to read it.

—Wm. Stott, of Bird Eye, Tenn., shot and killed John Collins near Lily, Tuesday. Stott had married a young lady named Walker whose family lived near that place. His wife had some misunderstanding with him and threatened to leave and go to her father's. Collins was an Englishman, 60 years of age, and was boarding with the family and offered to take the young woman home, to which I am told Stott agreed. After he left Stott followed on the next train. He went to where Collins was 14 miles from Lily, called him out of the house and told him he had nothing against him, but wanted to have a talk with him. When Stott got an opportunity he pulled a pistol, placed it to Collins' head and blew his brains out. This is the best information I can get, and, although the grand jury has not acted on it, the case seems to be a very bad one.

## LIBERTY, CASEY COUNTY.

—On Monday we had as visitors, A. J. Chestnut and wife, of Danville, C. P. Brown, of Hustonville, and on Tuesday, Ira G. Taylor, wife and brother, of Cincinnati, John P. Davis and son, of Stanford, all at Exchange Hotel. Judge W. G. Rains and Squire J. D. Owens have gone to Jamestown.

—Dr. J. W. Ellis, of Owensboro, and interesting family, with the exception of his son Willie, started Monday for Washington, D. C. The doctor has been with us some weeks on a visit to his father-in-law, Mr. John W. Whipp. He is a brother of Congressman Ellis, and is a pleasant cultivated gentleman.

—Maj. Geo. W. Drye has been confined for several days at the boarding house of Mr. John W. Wilkinson, suffering severely from sciatic pains. Oscar Wilkinson and Mart Cowden are also on the sick list. The latest information from Mrs. Melissa Adams, now at Hot Springs, Ark., is that she is doing well and improving in health.

—We were all astonished to wake up last Sunday morning and find the snow falling thick and fast. While the trees and house-tops were slightly coated, none lay on the ground. It continued until the afternoon. With the highest respect for the veracity of Mr. J. W. Rout, members of whose family we were intimately acquainted with in our early youth in Garrard county, we are confident that he is mistaken about a month in the time the heavy snow fell 40 years ago. We had experiences that year, that makes things very vivid to our memory. In February 1854, we were in Madison county, Florida, where the woods were green and the flowers were in full bloom. After a week or more rambling around in Southern Georgia and Alabama we went up the Chattahoochee river to Columbus, Georgia, where we remained until the last days of March and started on our home near McKinney in Lincoln county, where we arrived near the middle of April. After being in the sunny land for over three months, we were astounded on waking up one or two days after reaching home to find the trees and bushes weighted down with snow. It soon melted and the evening was warm and pleasant.

## To the Democracy of Lincoln.

At a meeting of the democratic committee of the 8th Congressional district, held at Lawrenceburg, April 26, it was ordered that county conventions be held at the respective court-houses in each county of the district on Saturday, May 26, at 2 o'clock, to appoint delegates to the convention to be held at Nicholasville at 1 P. M., June 5th, to nominate a candidate for Congress. In accordance with this order, I hereby call a convention to be held at Stanford, May 26, at 2 o'clock P. M. for the purpose named and trust that there will be a full attendance.

R. R. GENTAY, Chmn.

## MT. VERNON, ROCKCASTLE COUNTY.

—Circuit court begins here next Monday.

—Dr. Lovell has re-opened his stone quarry.

—A child of Harrison Pitman died Monday.

—A 60-foot tower will be added to the Institute building.

—The band boys will play for the decoration day exercises.

—The Pittsburg club came down Saturday, but rain prevented the game.

—The town marshalship is still in a muddle. We don't know whether there is a marshal.

—Wils Denny, the prophet, said two weeks ago that a snow would fall here before June 1st.

—Mr. A. C. Carr has bought the Jack Adams homestead and will erect a fine dwelling thereon.

—Telegraph offices at Parkville and Rileys have been closed and an office opened at Brumfield.

—Mr. D. N. Williams got a good ducking in Roundstone Creek, by his horse lying down in the water to cool off.

—It is evident that the Louisville Post cartoonist doesn't know the difference in a candle snuffer and an extinguisher.

—Mr. W. L. DeGraff, who was with us for some time, is pleasantly located at New Buffalo, Mich., in the jewelry business.

—Wild strawberries are abundant hereabouts. Last Sunday we raked off several inches of snow to reach this delicious fruit.

—The largest snowflakes ever seen in this county fell at 7 P. M. Saturday. Many that fell were as large as a gill cup, others were nearly three inches across their surface.

—Jack Lawrence is back from the West. T. L. Heston is at Springfield, Mo. Miss Gertie Weber is visiting Lexington friends. Mrs. C. J. Golden has returned to Louisville.

—Address "Inventor," box No. 1, this place for particulars regarding invention which will prove to be of considerable value to its owners. An Electric Light Signal that will be adopted as soon as brought out. A partner wanted to procure patent.

—Saturday's snow played havoc with small timber and orchards throughout the county. Wheat and rye fields are nearly a total loss and oats suffered considerably. Telegraph wires were all down between here and Pittsburg.

—Judge G. W. McClure is in Louisville. Prof. Dickerson's school closed Monday. A two-weeks' normal course is now in session. Miss Lucille Joplin is visiting Paris. Wix Dillon and G. W. Fagan were here Sunday. M. C. Miller has taken a telegraph job on the C. S. Mrs. D. N. Williams is visiting Wildie and Conway friends.

—Ben Kieter, who was raised in Nelson county and who worked a year or so here on the section some nine years since, has struck it rich in Central America. He with two companions from Boston found gold mines and purchased a large tract of land thereabouts. The excitement over the find is said to be nearly as the great '49 gold fever of California.

—Steve Sweeney, a section hand, who worked a few months at this place, left between suns some nights since. He got on a tear in Louisville and climbing the court-house steps, disrobed and went to bed on the cold stone. After being taken to the station house and ordered to put on his clothes, he ran his feet through the armbolts of his coat under the impression that he was getting into his trousers.

—C. H. J. Taylor, the colored statesman from Kansas, after having been rejected as a diplomat by the Senate and his nomination for recorder of deeds had been unfavorably reported by a Senate committee, finally secures this remunerative office. His nomination was confirmed by a vote of 34 to 15.

—The House committee on elections has voted to make a favorable report on the bill of Representative Tucker, of Virginia, providing for the election of United States Senators by a direct vote of the people. The report was agreed upon by a nearly unanimous vote.

—In a letter from Blount Springs, Ga., Congressman Goodnight announces that he will not, owing to ill health, be a candidate for re-election from the Third Kentucky district. McElroy, Govin and Helm are candidates.

—The Weather Bureau reports the thermometer lower Sunday than ever reported before at this time of year. Snow was scraped away in some parts of Kentucky so that strawberries could be picked.

—A meeting of the republican committee of the Seventh Kentucky congressional district has been called to fix the time and place for holding a convention to name a candidate for Congress.

—D. G. Simonson, of the Mammoth Clothing House, Louisville, has sued for divorce, charging his wife with adultery with numerous men. She has also brought action, charging cruelty.

—Miss Sarah Cates is in jail at Richmond for forging checks on her father, which he refused to pay.

GEN. COXBY and his lieutenants BROWN and JONES are languishing in the Washington bastille, Justice Miller after a pointed lecture having sentenced them to from 20 to 30 days each in the work house and to pay a fine of \$5. The general protested against being taken thither in the "Black Maria," and demanded a carriage, but his wishes were not respected and he was hustled off with the other vagabonds. He objected to being vaccinated, too, but the prison rule was not suspended for his benefit. Gen. Christopher Columbus Jones compared himself to Christ and the judge to Pontius Pilate and made quite a scene, but his voice was soon hushed inside the walls. Their sentence is a fitting finale to the tramp army scheme and its enforcement will deter other notoriety seeking cranks from engaging in it.

THE COURT of Appeals has decided in the case of Pat McDonald that one House of the General Assembly has the constitutional right to appropriate money to pay contingent expenses. In the long session of the Legislature, Mr. McDonald was copying clerk of the Senate, his bill therefor being \$1,100. That body ordered its payment, but the House did not join in the order. Gov. Brown vetoed the bill, the auditor refused to pay it, a lower court held that both bodies must pass such a bill, but the Court of Appeals reversed them all and directs the payment of the amount. This also settles in their favor similar claims of Messrs. Glenn, Keller and others for large amounts.

MR. JOHN W. YERKES, of Danville, has no especial longing after the flesh pots of office even if they were obtainable, and still less to go on a wild goose chase for one he knows there is no possibility of getting. The Advocate says he appreciates the compliment conveyed by expressions in his behalf in several counties, but that he positively declines to be come a candidate or accept the nomination if it were given him. Mr. Yerkes is a man of great amonity and a striking example of the angel who fears to tread, where fools rush in.

THE resolution of the St. Paul Union of Locomotive Engineers condemning Senator Walsh for offering a bill to make it a crime to obstruct or retard a U. S. mail train, punishable at one to 20 years, is out of the line of conservatism for which the engineers have been noted, and their effort to prevent its passage will not be endorsed by the public. In these times especially such a law is a necessity and it ought to be adopted. Surely no good reason can be urged against it.

SANDOWS, the modern Samson, advertised that he would wrestle with a lion and thus drew 3,000 people to see him at Central Park, San Francisco, but as he had been muzzled and fixed so his claws wouldn't hurt, the animal refused to come to time, even after being swung around by his antagonist, and the match was given to the man. It would have been the same any way. The sprinter in the circus always wins the contest for fleetness over the horse, by taking all manner of inside tracks and short cuts.

ELLIS, Goodnight and Paynter will not be in the next Kentucky delegation to Congress, each having declined to run again. They are pretty fair sort of men as Congressmen go, but none of them has distinguished himself and will not be missed. All the other members are candidates for re-election and are likely to be returned, except perhaps Caruth and Breckinridge, against whom strenuous efforts are being made.

In his lone and lorn condition in the Kentucky delegation, Congressman Adams often has to whistle to keep his courage up. He is doing so now or was when he told a Cincinnati Commercial Gazette man that instead of one, Kentucky would send four republicans to Congress next time. Not if she knows it, oh, dear no. Col. Adams will continue in his lonesomeness.

THE latest publication is Kentucky Weather and Crops. It is edited by Mr. Frank Burke, U. S. Forecast official at Louisville and H. L. Ball, observer of the Weather Bureau, and is as its name implies devoted to news of the crops as affected by the weather. It has reports from all over the State and is well worth the \$1 a year charged for it.

THE nomination of Congressman Oatts for governor of Alabama is an administration victory. The Kolbitses say they will make another fight, but the chances are that they will get worse snowed under than before.

Tax civil service commission is not in very good odor among democrats in or out of Congress. The law seems to have been designed to keep the republicans in office and to keep the boys in the trenches, who believe in the Jacksonian theory that to the victors belong the spoils, on their old diet of husks and shucks. When the legislative and judicial appropriation bill was before the House Tuesday a motion was made to strike out the amendment making an appropriation for the commission, which was seconded by Mr. Caruth, and passed by 109 to 75. If the Senate should do likewise, the old thing would have to go and most all the people would say amen.

AFTER Senator Gorman, of Maryland, who has heretofore been classed with the democrats, had made a speech in favor of protection and defending the miserable compromises in the tariff bill, Senator Teller moved that the bill and amendments be tabled. It was defeated 38 to 28, Hill and three populists voting with the democrats. It was a sorry exhibition indeed and was enough to disgust honest people, who had hoped to see democratic promises redeemed long ago.

THE umbilical cord that binds Congressman Goodnight and John Gaines, Bowling Green's postmaster, is made of silk and is a yard wide. His letter withdrawing from the race is addressed to "Dear John" and signed "Herschel" and is couched in words so touching that one is forced to marvel that Damon and Pythias are still among us, and open the flood gates of his lacrymatory.

THE weather bureau should not be censured. It did its best to give us good weather all the week, maintaining each day that the next would be fair and warmer, even in the face of Boreas blasts, snows and frosts. We would not have had the worst spell of the season, if the bureau could have helped it.

A CHICAGO woman loaned a man some money and shot herself because he failed to pay it back at the time proposed. This was a very foolish performance. She ought to have turned the business end of her pistol at the rascal who disappointed her, and pulled the trigger.

ONE newspaper publishes a report that Baby Ruth is an idiot and another that Mr. Cleveland and his wife are at odds and she has gone to her "mamma." Such stories disgrace the papers that publish them and have no weight with sensible people.

As between the democracy of Grover Cleveland and Senator Morgan, the Alabamians are largely with the president, but after they had endorsed him, they saved the Senator by recognizing his ability and recommending his re-election.

CAPT. SAM BOONE says he only went to Somerset on a visit to his family and not to remain, as stated. He is still editor of the Marion County Falcon, with fire in his eye and flight in his heart, and here's to him.

## ADDITIONAL LOCAL.

A FEW coats of paint have changed the appearance of Mr. Peter Straub's house so greatly that its most intimate friends almost fail to recognize it.

THEY'VE been at it again up in Harlan. James Middleton, Sinclair Middleton and R. Shackelford were shot and killed in Harlan county Tuesday by Gil Saylor, Birt and Noble Hensley. The killing was caused by the wife of one of the men.

CHILLY, disagreeable weather, with occasional showers have prevailed for a week, making fires and heavy clothing a necessity, and checking vegetation. Yesterday's dispatch read, "Threatening and probable showers, followed by fair, stationary temperature, Friday."

THE young men have decided to have their hop on Wednesday evening, June 13th, instead of the 15th, as heretofore published, in order to prevent a conflict with the Linnetta Springs opening hop, which will occur on the 15th. Saxton's orchestra, of Lexington, will furnish the music and nothing will be left undone to make the occasion a delightful and memorable one.

FARMERS differ as to the extent of the injury done to the wheat by being mashed down by the snow of Sunday last, but all agree that it is considerable; Mr. John Bright says 30 per cent. The sun has not shone sufficiently since to make it rise and at present it is in a very bad condition. The farmers have one consolation. The price of the cereal is so low that they won't lose much in any event.

## MATRIMONIAL MATTERS.

The all-gait Saddle Stallions.

### \$10 the Insurance.

J. STEELE CARPENTER, Hustonville, Ky.

## EAGLE : BIRD.

Winner of the \$300 Stake at Lexington. Winner of Sweepstake Premium at Lexington. Winner of Aged Premium and Sweepstakes at Paris. Won Second Money in \$300 Stakes at Versailles. Won Third Money in \$300 Stakes at Nicholasville. Won Fourth Money in \$300 Stakes at Stanford. Won the \$300 Consolation Purse at Danville.

Eagle Bird is a beautiful brown with small star, stands over 16 hands high, has flowing mane and heavy tail. Eagle Bird was sired by the great King Eagle, winner of more than 40 Blue Ties. First dam by Star Eagle, son of Cabbell's Lexington; 2nd dam by Hamlet Denmark, son of Washington Denmark; 3rd dam by Harris' Denmark, son of Miller's Denmark.

Eagle Bird will stand the season of 1894, at my farm two miles west of Stanford, on the Shelby City pike.

### At \$20 to Insure a Living Colt.

Money or cash note will be required when the fact is ascertained. Eagle Bird is one of the grandest show horses in Kentucky. Monte Cristo, his uncle, is the only horse shown in the Blue Grass Circuit that he did not defeat. He could be relied upon to make a gallant show whenever called upon and always finished as game as a race horse, although some of the "knowing ones" pronounced him no good. As a breeder of fine, high-styled, good colored colts, he is not surpassed by any horse in Kentucky.

Mares from a distance will be furnished grass after May 1st at \$1.50 per month, and must be paid at the removal of mares. Care taken to prevent accidents and escapes, but not responsible should any occur. Parting with or removal of mares forfeits the insurance. Will also stand a fine mule Jack at \$7 to insure a living colt.

E. P. WOODS, Stanford, Ky.

## CLINTON, JR.

This fine young Jack will serve a limited number of mares at Eight Dollars. Season money due if mare is traded or parted with. W. S. GARNER, Crab Orchard, Ky.

Logic's 1st dam by King William 67, (Blind Billy) by Washington Denmark, by Black Denmark, and dam by Miller's Denmark, by Denmark, by Imp. Hedgeford.

Logic is a very substantial horse, beautiful red sorrel with fine mane and tail, which he carries as near to perfection as a horse can. Has a fine disposition; drives nicely, and for his handling he is a fine actor, Rack, Trot, Walk, Canter and Slow Pace.

You can see from his pedigree that he is a very high bred saddle horse, and one that will sire many high bred saddlers. Logic will make the season at my farm, four miles from Danville, on the Danville and Stanford turnpike at

### \$10 to Insure a Colt 4 Weeks Old.

A lien retained on colts until payment of service. He is standing to suit the hard times. See him before you breed. Pasture at \$2 per month. Grain fed at reasonable rates, but not responsible for mares are taken away. A. E. HUNDLEY, Danville, Ky.

## Welchmont 6367.

Son of William Welch, son of Rydyk's Hambleton 10, out of Pauline by Almont Forest, he by Old Almont, he by Alexander's Aboliah, he by Rydyk's Hambleton 10, all standard and registered with all the trotters you want on both sides, with records as low as 2:05.

Welchmont imports trotting action to his colts all year. Several have shown a 2:15 gait. He is tall 16 hands high, black as a crow; imports high knee action. His colts make fine New York saddlers. He is a fine individual and stands at Hustonville at my stable at

### \$10 to Insure a Living Colt, or \$5 the Season.

Lower than any other horse in Kentucky bred like him. D. S. CARPENTER, Hustonville, Ky.

## English Hunter.

Combined, Bay Stallion, 16 hands high. By Abdallah Messenger. First dam the Wm. Link saddle mare, she by Davy Crockett, son of Danny's Dream, by Imp. Drennon. Abdallah Messenger, sire of English Hunter, is by Messenger Chief, sire of Maud Messenger 1916.

I will stand English Hunter the season of 1894 at my stable, 1½ miles from Shelby City, on the Knob Lick and Turnersville pike.

### At \$8 to Insure a Living Colt.

Money due when colt is foaled or mare parted with or bred to another horse. Lien retained on all colts until season is paid. Grass furnished mares at \$1.50 per month. Will not be responsible for accidents, should any occur. I will also stand the excellent young Jack, Governor St. John.

## Governor St. John

Four years old, 16 hands, 3 inches high, black with white points, heavy bone, good style and extra length. Sired by Gov. Keene, Gov. St. John's 1st dam Polly Woods, by Tulley's Warrior; her dam an Imp. pacer.

The above finely bred young Jack, whose blood line traces twice to the great Warner family and to the noted Black Hawk, the grand old of the Warner family with an infusion of fresh imported blood close up, has proved a great breeder, both to mares and to jennets, will stand

### At \$8 to Insure a Living Colt.

To approved mares, and \$15 for jennets, without distinction as to sex of progeny. B. F. POWELL.

## Dillard : Denmark.

This finely bred stallion will make the season of 1894 at Cook's Springs, 4½ miles East of Stanford.

### At \$10 to Insure a Living Colt.

Money due when colt is foaled, mare parted with or bred to another horse. Lien retained on all colts until season is paid. Grass furnished mares at \$1.50 per month. Will not be responsible for accidents, should any occur. Dillard Denmark was sired by Double Denmark, he by Montrose 100, the greatest sire of high class saddle horses living. Montrose descendants won over most everything last season. Dillard was shown at Danville when a 3-year-old and won second money. He has been handled very little but will be put in training after a short season and shown.

First dam by Washington Denmark; 2nd dam by John Dillard; 3rd dam by Gray Eagle, thoroughbred. Double Denmark by Washington Denmark; 2d dam by Shilphire's Tom Hal.

Dillard Denmark is a beautiful dark sorrel, 16 hands high. He has proven himself a breeder of large, handsome movers. This is a fine horse if he had no pedigree; but we do not hesitate to say that he is one of the best bred saddle horses in the country.

Saddle and combined horses handled at reasonable rates. J. P. COOK, Rowland, Ky.

## Connaught : 2nd.

This fine Hackney Stallion will make the season of 1894 at my farm on the Crab Orchard pike, three miles from Stanford, known as the John M. Hall farm, and will serve mares

### At \$15 to Insure a Living Colt.

Money due when the fact is ascertained or mare parted with. Connaught 2d 1815 is a fine individual and possesses the finest action of any horse in the country. The Hackney is noted the country over for style, action and endurance. They have been bred for these qualities for over 100 years. Connaught 2d was bred by James Coker, of Beethley Hall, East Dereham, Norfolk. Was sired by Victor of Beethley 1837; dam Bonnie 1843, by Highbury 1006. He was imported by A. H. Thompson, of Crawfordsville, Indiana, June 3, 1893.

TESTIMONIAL.—I think the Hackney crossed with Kentucky mares will make good sellers and good horses for the Eastern market. LEE THOMAS, Lexington; E. D. PENNINGTON, Norfolk, Va. Call and see this excellent stallion. LINCOLN COUNTY HORSE CO., By A. F. MORRELL, Stanford, Ky.

## He Could Stand It.

A church organization in Maine intending to give a performance of some oratorio were a little alarmed about the cost of the thing. Accordingly the director of the chorus suggested to the leader of the orchestra that had been engaged: "We've got to keep our expenses down and I thought we might get you to leave out the trombones. You know they have only four measures in the entire oratorio, and if we leave them out we can save at least twenty-five dollars and no one would be the wiser."

The leader of the orchestra assumed a tragic attitude and answered: "That would be an insult to the composer." Thereupon the chorus director observed: "O, never mind him; he's dead."—Washington Star.

## That Settles His Fate.

Young Mr. Spudkins is desperately in love with Miss Bellefield, but he is as poor as a church mouse," said Mr. Snaggs to his wife.

## PLOWED UNDER.

I saw a field of rich, green clover grow  
Its blossoms honey-laden for the bee;  
And turning to the owner who stood by,  
I asked what time the harvesting would be.

"'Twill not be gathered in," "How then?" I  
cried.  
"Have you no recompense for all your toil?"  
The farmer smiled; he was more wise than I:  
"I plow it under to enrich the soil."

And all at once I seemed to see more clear  
Some things that I had tried to comprehend;  
Has not the heart, like that broad field, its  
growth  
That never seem to reach their destined end?

Its early dreams that perish unfulfilled?  
Its youthful hopes that vanish ere their  
prime?  
Its fond affections and its tender love,  
Borne down before their perfect blossom  
time?

I mused on these, and as I turned my feet  
Back to the city with its swift turmoil,  
I smiled and said in tranquil, sweet content:  
"God plows them under to enrich the soil."

## A REPORTER'S "STORY."

How George Stanton Made a Discovery in Newspaper Work.

"Write for the Times! Do you imagine you went to college for that? You can't write."  
"Have you ever given me the chance?"  
"No. But I know you couldn't." I daresay you've been counting on doing this, eh?" The younger man bowed.

"And have been laying in a stock of flowing rhetoric and fine-spun theories," the elder continued. "Humph! The Times wouldn't pay in a month's time if we fed the public on stuff of that sort. What it wants is food of another kind."

"What's to prevent my providing it as well as the other writers on the staff? Is my college education to be a drawback to me? If it is—"

The sentence was left unfinished, and the elder man silently returned to his work of glancing over some copy spread out on the desk before him. When he had finished the last page, he turned to the first and wrote "m. g." across the top.

"What does that mean?" George Stanton inquired.  
"Those letters stand for 'must go.'"  
"Then whatever bears them goes?"  
His uncle surveyed him with a grim smile lighting his face.

"It's apt to," he said, dryly.  
"Then anything I might write would be printed, regardless of its merit, if you so marked it?"  
"Certainly. But you must remember that an uncle indulgent to faults, and the proprietor of this paper—a successful business enterprise—are two distinct personalities."

"Which you bear, I understand. But surely literary merit cuts some figure?"  
"Um—if the name of the writer who possesses it is well known, it does."  
"Not otherwise?"

The elder man shook his head emphatically. "I've no use for 'em."  
"Why, that makes out the newspaper of to-day a money-making machine of the lowest order," George Stanton exclaimed, indignantly. "The brains of the concern are subservient to the business office."  
"Exactly."

There was a pause, during which the younger man tipped back his chair against the wall and gazed abstractedly at the ceiling. At length he brought the legs of the chair to the floor with emphasis.

"I still maintain that it isn't fair that I shouldn't be given a trial," he remarked.  
"I suppose you've got a batch of manuscripts all ready to fire at me," the nephew's face flushed. "I thought so. Well, I don't want 'em. Now see here, what this paper wants isn't rhetoric, it isn't eloquence, it isn't philosophy, it isn't literary merit, as you call it—it's just life—plain, everyday life. I wouldn't publish the most beautiful flight of fancy that was ever written—I've no use for that sort. But life—things near, local, personal—give me those. If you keep your eyes and ears open, you'll find more tragedy in one block of San Francisco than in the whole of Shakespeare."

"Then you give me the chance?"  
Frederick Stanton hesitated. "It's open to you the same as it is to all," he replied, indifferently; "you would be paid for space-work at our regular rates, providing we accepted it. Mind you, I don't say I'll take what you write."

"But if it suits, you'll 'm. g.' it?"  
"If it suits," the other repeated, a little sarcastically, with a movement which closed the interview.

A week later the young man again presented himself in his uncle's private office.

"I've followed your advice, Uncle Fred, and taken life for my subject." He threw himself into a chair and gave a twist to his head in the direction of the inner door. It was slightly ajar, and he rose and shut it before he resumed. "You see, what you said about the tragedies of life—and, of course, I inferred that you meant the comedies as well—being right under our noses, as it were, set me to thinking. Meantime, I have found out the true meaning of your mystic letters. Whatever bears them *must* go in the columns of the next issue, regardless of time, space or other consideration. They are so potent as to require no explanation, no suggestions from the molders of public opinion who preside in the editorial den. Whatever an editor may receive from a proprietor initiated 'm. g.' will be printed, even if it be the death-warrant of the entire staff."

"Is this a lecture on the depravity of the press in general, or my own paper in particular?"

something spicy and realistic enough to suit even you!"

"I told you that if you wrote anything fit to set up type for, it would be judged impartially and paid for at the regular rates."

"It isn't the pay so much," George Stanton replied, contemptuously.  
"Want to see yourself in print, I suppose. Well, let's see what you've produced." He took up the sheets before him and began to read them. When he had finished he turned to his nephew in surprise. His eye beamed with the delight begotten of "scoops."

"Well, my boy, that's a corker!" he said, heartily. "Where did you get it?"  
"Listened and heard some old gossips tell it, as you told me to do. All I know is, that it's the escape of a woman high in local social circles, just as I've said."

"Escaped, well I should think so, and she saves her reputation by having a midnight supper charged to Mrs. H—, who is not in a position to object."

"Of course I had to exaggerate it a trifle—touch up the high lights, you know."  
"And darken the shadows. Well, that's what we want, and you've hit it the first time. Only if we could give the name of the woman who did it, or those of her relatives, it would be stronger. Don't know it, eh?"  
"No."

"Well, the name of the woman she personated is enough for one scoop, and we've got that. Perhaps others may know it, and it'll set 'em to talking." He took up his blue pencil and wrote "m. g." at the top of the page. "Perhaps you'll make a newspaper man after all, in spite of your college education—who knows?"

George Stanton seized the manuscript and hurried off with it to the editorial den, where he deposited it gleefully upon the top of a pile of papers on the editor's desk. After that, dinner, the theater, supper, followed in succession, and at midnight he tried to possess himself with patience to await the arrival of the paper which would contain his maiden effort in journalism.

An overwhelming disappointment awaited him. For, when he unfolded the sheet, not a line of his production could he find. After searching several times through the sixteen pages of the paper, the conviction was forced upon him—it had been omitted.

He hastened to his uncle's office, for, although it was Sunday morning, he knew he should find him there.

"My article has been omitted," he announced.  
His uncle surveyed the crest-fallen countenance before him.  
"Omitted? I haven't had time to glance at the paper yet—there's so much of it—it can't be possible."

"It is, though. Here's the paper; look for yourself."

The proprietor glanced hastily over the sheet.

"I never knew Bacon to do such a thing before in all the seventeen years he's been on the paper."

"Where is he?"  
"Home, I suppose; I haven't seen him. Ring up the porter and find out."

The man reported that Mr. Bacon had been in his office all night, "walking up and down, sort of strange-like. I axed him for anyone after him, but he said 'No,' kinder absent-minded-like, and went on walking up and down."

Frederick Stanton dismissed the man. His words had deepened the mystery. "I can't understand this at all. Come, George, we will find out what it means."

At the door of the editorial office, a haggard face confronted them. Mr. Bacon silently ushered in his visitors and closed the door.

"I sent you some stuff last night, Bacon," said Frederick Stanton, "and I've come to hear your explanation—if you can give one—as to why you kept it back."

The man addressed began to pace the room nervously.

## EARLY SHEARING.

Several Reasons Why It Is to Be Recommended.

The postponement of the shearing of sheep until late in the spring is pretty sure to cause sad results that may lead to any amount of loss. As a rule, this work should be done as early in spring as possible—before, in fact, any hot spell comes. If not, the animals, weighted down by their thick wool, are sure to suffer from the first warm weather, and if this is continued for any length of time their systems will become debilitated, and disease may set in. It is quite essential that the flocks should begin their summer season in good condition, and by shearing them early they are sure to avoid any danger from disease. They also escape troublesome annoyance from ticks, which are sure to lodge in their wool in hot weather and cause considerable harm.

Early shearing also affects the lambs, for if the mothers are weakened by wearing heavy wools they are pretty apt to give poor health to their offspring. To have perfect lambs it is then quite essential that the mothers should be sheared very early in the spring. There is a final consideration that is important. By early shearing we are apt to get more for the wool than if kept until later, when the whole season's clip begins to come in. There are many seasons when the wool market is scarce of supplies toward spring, and the first new wool that comes in is pretty sure to command a premium.

The value of wool also depends largely upon the condition which it is in when sheared. Wool that is long, silky and strong of fiber is sure to sell well and at a good profit. Good washed wool will generally bring from 20 to 30 per cent more than unwashed. It pays a sheepmaster to wash his own wool so long as such big deductions are made for the unwashed. The amount of weight lost in washing does not begin to correspond to the deduction usually made in the price. But washing sheeps delays the shearing time until quite late in the season, until the water gets reasonably warm, so that a man can enter it without being chilled through. The question is frequently a pertinent one as to whether it is not better to shear early and not wash than to wait until late enough to wash the sheep in warm water that is sure to come in late spring.

On the other hand, if wool dealers could be induced to pay for unwashed wool just what it is actually worth per pound, it would be a more profitable practice to the farmers not to wash their wool. As it is now, it defers the clipping season until quite late and not only injures the physical condition of the sheep, but injures the owner's chances of great profit. But washing the sheep too early in the season is just as productive of injury. Many a sheep has caught a heavy cold that resulted fatally by being plunged in the icy water early in the season, and many more have had their systems temporarily deranged from the same cause. It is a question of two evils at present, and the flockmaster has little choice. Considering everything, one appears as good a practice as the other.—E. P. Smith in American Cultivator.

**Amateur and Professional Drivers.**  
If a gentleman of leisure starts out to campaign a stable of trotters for his health or pleasure, competing with professionals, he ceases to be an amateur in the strict sense of the word, because he is doing exactly as the professionals do, with the exception that he is not being paid for his time and trouble, though he is saving the expense of a trainer, and therefore virtually paying himself. Such a driver has no place in the amateur ranks, but the man who leaves his business periodically every day or every week for a spin down the avenue and occasionally gets up behind his own or his friend's trotter and drives him in a race certainly is an amateur irrespective of whether he wins or loses. The fact that a wealthy man campaigning his horses himself through the big circuits is not thereby gaining a livelihood should not entitle him to a place among amateurs, notwithstanding the actual words used seem to fit his case.—Horseman.

**Live Stock Points.**  
It is practicable if the thing is rightly managed to spray even large flocks of sheep with the kerosene emulsion, which is death to all forms of insect life. This spraying with the emulsion is much less disagreeable and laborious than the old way of dipping the sheep.

A writer says that the Pacific coast is far ahead of the east in the matter of knowing how to load a wagon. There is science in the adjusting of a load so that a team can pull it easily, a science that the ordinary ignorant driver knows nothing at all about. The writer mentioned claims that it is fully understood in San Francisco.

Balod, pressed emulsion has not proved a success. It decays.

Breed for fall pigs in June.

When a horse breathes hard and bloody matter runs from his nostrils, it is pretty evident he has glanders. Consult a veterinarian and find out for certain, and if it is a clear case kill the horse at once and cremate his body without skinning. A man died in Brooklyn a year ago from handling the hides of glandered horses.

Cows may be disinfected at any time and under all conditions if it is carefully done. Put a bandage of tarred muslin over the udder after the horn has been removed.

Dip or spray your sheep just after shearing. About 10 days after shearing the old sheep is a good time to spray or dip the lambs.

If you have no shade trees for your poultry, plant some sunflowers or castor beans to be ready for shade when the brooding days come.

## What She Thought.

The teacher had told the small girl with the old woman's ways, the story of George Washington and his little hatchet.

"And did he really tell his papa that he done it with his little hatchet?" she asked.  
"Yes."  
"Boys is just like me," she said with a wise shake of her head.

This was a bit too deep for the teacher.  
"What do you mean by that?" she inquired.  
The child seemed surprised at the teacher's ignorance.

"Why," she replied, "always trying to blame it on somebody else. The little hatchet couldn't help itself."—Detroit Free Press.

NEARLY all the old inhabitants agree that Mr. Renben Williams is right and Mr. John W. Rout wrong in his date of the snow storm of 1854, though Mr. Rout can whip the man that dares tell him so.

THE POST.—Mr. David B. G. Rose, agent for the Louisville Post, was here Wednesday and established an agency for the sale of his paper. George Barnes Wearen is agent and the first morning secured 42 subscribers to the excellent daily.

FRIENDS of Gov. McCleary should make it a point to attend the county convention here next Saturday at 2 P. M. He has no opposition but a faithful servant loves to have his masters say, "Well done," to him, and Gov. McCleary eminently deserves such expressions from us.

Mr. R. WILLIAMS says that the cold spell and snow Mr. J. W. Rout spoke of in our last was on the 10th of April, 1854, instead of May 17th of that year, as Mr. Rout thinks. He remembers well to have gone to Liberty on that day and the records in a case he had in that court prove to him conclusively that he is right about the date.

KILLED NEAR LULY.—Mrs. Laura J. Faulkner sends us the following: "John Collins from Bird Eye mines, was shot through the head and instantly killed 1 1/2 miles South of this place about 6 o'clock P. M. Monday, by William Stott. An inquest was held last evening. No arrest was made. Stott has disappeared." The murderer accused Collins of stealing his wife.

A DISPATCH from Harboursville says that diphtheria has developed there and the physicians have declared it epidemic. There were no church services anywhere in the city Sunday, and the public and private schools will be closed. The physicians issued a bulletin requesting that no public services be held anywhere in town for some time. Knoxville physicians have been summoned to consult with local physicians.

THE Fair is now a certainty. Eighty shares of stock have been taken and a meeting of the stockholders will be held at the court-house at 2 P. M. Saturday, June 2, to elect officers, arrange the list of premiums and transact other business. There is already assurance of a fine lot of stock from a distance and with the full quota in this and adjoining counties, we see no reason why the fair will not be a success.

ENTERTAINMENT.—Miss Georgia Lewis will close her fourth term as teacher of the Mt. Xenia school next Tuesday, at 8 P. M. with a musical and literary entertainment by the school, assisted by former pupils and others. The Cook boys, of Danville, also former pupils of the accomplished young lady, will be on hand with their orchestra to furnish the music. The small admission fee of 15 cents for adults and 10c for children will be charged, the proceeds to go to the school library. A nice entertainment is assured and the capacity of the house will be fully tested.

THE illustrated lecture by Mr. Isaac M. Yonan, the young Persian, who is trying to raise money to complete his education so as to return to his country and preach the gospel of the living Savior to his benighted brethren, filled the Presbyterian church to overflowing Wednesday night and all were interested and instructed. The lecturer speaks English remarkably well for his opportunities, and his peculiar accents and pronunciations makes his talks the more attractive. He speaks 11 languages with more or less fluency. Persia is one of the most inaccessible countries in the world. It is 11,000 miles from the United States and to reach the Capital of the country requires 72 days. There are no railroads or other public conveyances, the only means of travel there being upon the backs of donkeys, that go only about 15 miles a day. In speaking of Cyrus, one of the shah's of Persia, Mr. Yonan said he was the best and greatest king that ever lived, except Washington; which remark was applauded as much as it could be in church. His reference to the shah's having 400 wives and numerous other points in his descriptions of the country and his own experience provoked much laughter. He had a great number of pictures and as the room was warm he had to "hoose," as he said to get through in decent time. He is a man of fine intelligence and Christian people should lend him a helping hand in his effort to prepare himself for work among the heathen. Our people do not seem very anxious to help, however, as the receipts by hat contributions, were only \$17.50, less than 5 cents a person.
